```

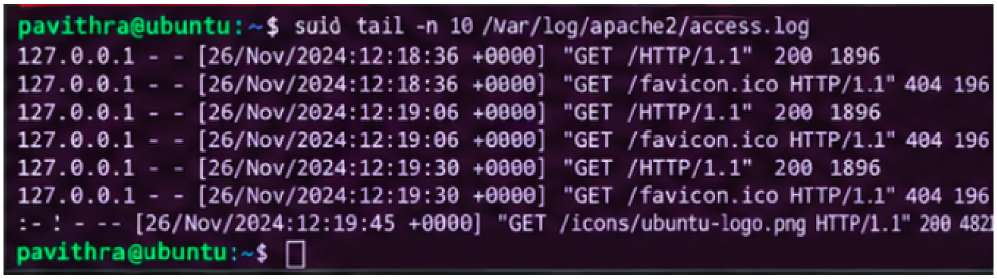
Apache2 Default Page

It works!

This is the default welcome page used to test the correct operation of the Apache server after installation on Ubuntu systems. It is based on the equivalent page on Debian, from which the Ubuntu Apache packaging is derived. If you can read this page, it means that the Apache HTTP server installed at this site is working.



```
pavithra@ubuntu:~$ suid tail -n 10 /Nar/log/apache2/access.log
127.0.0.1 - - [26/Nov/2024:12:18:36 +0000] "GET /HTTP/1.1"  200 1896
